

## Go and Do Likewise, Inc

To Whom it May Concern;

Ref: Sherry Lawler Sparks

Sherry has been a regular and consistent participant in most all our media and internet presence for the past 8 years. Her willingness to make herself available within our request time frames made her excellent quality of work even more valuable.

Sherry assisted our organization in many ways. Web site development, web maintenance, content developer. She has been active in media design and production of video, Posters, slide presentations and was the single lead and production person on a book we had published defining our initial passions and efforts. This piece still remains today an effective part of our Mission introduction. The list of individual items which Sherry produced, edited, managed and finalized is abundant.

Sherry is today an extremely valuable contributor to our ongoing efforts.

I highly recommend her; professionally and personally. Sherry is dedicated, creative and a complement to excellence.
